Soma kifungu kifuatacho kisha ujibu maswali 31 mpaka 40.

Wanafunzi wengi hudhani kwamba michezo ya riadha huanzia shuleni. Hata hivyo, ukichunguza kwa makini utapata kwamba watu huanza kushiriki katika riadha na michezo mingine wakiwa watoto wakembe. Ikiwa unakumbuka vyema, utapata kwamba ulianza kucheza kabumbu mara tu ulipoanza kutembea. Mara ya kwanza mpira wako ulikuwa sahani ya mama yako, au hata kikombe ulichotiliwa maziwa. Ulipokua kiasi, wewe na wenzako mliunda mpira kwa karatasi, majani au vitambaa, ambavyo mara nyingi mliokota kwenye majalala.

Huenda unakumbuka mara yako ya kwanza kuogelea. **Sitashangaa ukiniambia kuwa kidimbwi chako kilikuwa maji machafu yaliyokuwa nje ya nyumba yenu.** Wengine wataniambia kuwa waliogelea kwenye vijito vilivyojaa konokono **bila kuwa na mwao** na hatari ya kuambulia magonjwa. Licha ya kuogelea, wewe na wenzako pia mlishiriki katika michezo mingine kama vile kurusha tiara, kibe, kuwinda kuku na ndege kwa mawe, kuvutana kwa kamba, kuruka kamba, na kuzungushia tairi kwenye kiuno. Wakati mwingine mlikimbizana ili kuona anayempiku mwenzake.

Ukiulizwa kuhusu michezo mliyoshiriki mkiwa watoto, utasema kwamba michezo hii mliitunga wenyewe. Kadhalika nyinyi wenyewe ndio mliitunga sheria ambazo zilidhibiti uchezaji wenu. Wale ambao walivunja sheria hizi walipewa adhabu kali kama vile kutengwa na kikundi au kupewa kazi ya kuwahudumia wengine wakiendelea kucheza. Bila shaka adhabu hizi ziliimarisha nidhamu miongoni mwenu. Hali kadhalika michezo hii yenu haikuwaleta pamoja tu, bali pia ilichangia kuimarisha urafiki. Mathalani, mmoja wenu alipoumia, kundi zima lilimshughulikia. Aidha, michezo hii ilikuza ubunifu na ujasiri. Kule kutengeneza mipira na nyavu kwa nyasi au karatasi kuliwapa stadi zaidi za kuunda hata vifaa vikubwa zaidi. Vilevile ni wazi kwamba ulipoirusha tiara yako, na kuwashinda wenzako katika mbio, ulijihisi kuwa shujaa na kujiamini zaidi. Wakati mwingine hata ulichaguliwa kuwa kiongozi wa kundi kutokana na umahiri wako katika michezo.

Natumai unafahamu kuwa michezo hiyo yenu iliwasaidia kujenga misuli na kuimarisha viungo vya mwili. Ni wazi kwamba wakati uliposhiriki michezo hii ulijihisi mwepesi zaidi, na uliweza kutekeleza mengi bila kuchoka haraka. Zaidi ya hayo, michezo hiyo ilikuwezesha kupata usingizi wa pono na kuraukia shule bila kulazimishwa na mlezi wako. Ikumbukwe kwamba michezo hiyo hiyo ndiyo inayoendelezwa hata shuleni. Manufaa yake ni mengi hata kwa watu wazima. Wanaoshiriki michezo hii katika nyanja za kieneo na kimataifa hujifaa kwa mengi. Kuna wale ambao hushinda tuzo na nishani mbalimbali kutokana na weledi wao. Wengine hupata fedha nyingi na kuambulia utajiri wa ghafila. Pia baadhi huteuliwa kuchezea timu za kimataifa na kuziletea familia, na nchi yao sifa kuu. Wapo wanaoajiriwa kama makocha na marefa wa timu za kitaifa na kimataifa.

Mke ni nguo, mgomba kupaliliwa. Nao utendaji wako katika michezo unahitaji kuboreshwa kila mara. Ushauri wa walimu na wanajamii wengine ni muhimu katika kukuimarisha michezoni. Hao hukuelekeza kuhusu namna ya kutumia muda wako vyema; usije ukaegemea sana katika michezo ukasahau mengine muhimu kama vile kudumisha usafi, kuzingatia masomo na mahusiano ya kifamilia. Kadhalika, ni sharti ufuate nasaha ya waelekezi wako kuhusu njia bora ya kutumia pato ambalo huenda ukapata kutokana na michezo.

 - kuogopa
 - kuajabia

Meli alipokivuka kizingiti cha lango la shule ya kitaifa ya Tungambele alikuwa na azma ya kusoma kwa bidii ili kuinukia kuwa kijana wa kutegemewa na jamii yake. Alikuwa kalelewa katika familia yenye pato wastani. Akasoma kwa juhudi za wazazi wake hadi darasa la nane alipokwangura alama za kumwezesha kujiunga na shule hii ya kifahari. Meli alijua kwamba alikuwa mwanagenzi, si katika masomo ya shule ya upili tu, bali pia katika maisha ya jijini ambamo shule hii ilipatikana. Kwa kweli hii ndiyo iliyokuwa mara yake ya kwanza kutia guu kwenye jiji hili ambalo habari zake akizisoma, ama katika magazeti machache yaliyowahi kufika kijijini mwao, au kupitia soma la Elimujamii. Hata hivyo, Meli hakuwa mtu wa kuogopa au kunywea machoni mwa changamoto. Alijiambia kwamba kwa vyovyote vile atapambana na maisha haya mapya.

Saa mbili kamili asubuhi ilimpata Meli kapiga foleni katika afisi ya kuwasajili wanafunzi wageni. Wasiwasi wa aina fulani ulianza kumnyemelea alipotazama hapa na pale bila kuona dalili ya mja yeyote aliyemfahamu. Alijihisi kama yule kuku mgeni ambaye mwalimu wake alishinda kuwaambia kuwa hakosi kamba mguuni. Hata hivyo uliupiga moyo wake konde na kujiambia kuwa kuja kwake hapa kulitokana na juhudi zake mwenyewe na katu hatauruhusu ugeni wa mazingira kuifisha ari yake ya masomo.

Usajili ulikamilika, naye Meli na wenzake wakajitosa katika ushindani wa kimasomo jinsi waogeleaji wajitumbikizapo kidimbwini wakapiga mbizi, baadhi wakiambulia ushindi na wengine wakifedheheka kwa kushindwa. Meli na wenzake walibainikiwa kwamba wote walikuwa mabingwa kutoka majimbo na wilaya zao. Ilimbidi kila mmoja wao kujikakamua zaidi ili kuelea katika bahari hii ya ushindani. Muhula wa kwanza ulishuhudia kishindo cha Meli kubwagwa chini na majabali wenzake. Alijipata miongoni mwa wanafunzi kumi wa mwisho; au kama alivyozoea **kuwatania** wenzake katika shule ya msingi, "wanafunzi kumi bora kuanzia mwisho"! Hili lilimwatua moyo Meli na kumfanya kutahayari. Alifika kwao amejinamia kama kondoo aliyelumia malishoni. Akawataka wazazi wake wambadilishie shule lakini wakakataa.

Muhula wa pili na wa tatu mambo yalikuwa yaleyale. Meli akahisi kama askarijeshi aliyeshindwa kabisa kutambua mbinu za kuwavizia maadui. Akaona kwamba njia ya pekee ni kujiunga na wenzake kama yeye katika vitendo vya utundu kama vile kuvuruga masomo kwa kupiga kelele darasani, kupiga soga bwenini na hata kuvuta sigara. Mwanzoni alichukia vitendo hivi lakini alimeza mrututu akisema kwamba ndiyo njia ya pekee ya **kujipurukusha** na aibu. Wazazi wa Meli hawakusita kutambua mabadiliko katika hulka ya mwanao. Wakajaribu kumshika sikio nyumbani lakini akawa hasikii la mwadhini wala la mteka maji msikitini. Wakawahusisha wataalamu wa nasaha ambao waliwaambia kuwa Meli hakuwa na tatizo lolote la kuyamudu masomo. Kile alichokosa ni kujiamini tu.

Wazazi wa Meli waliona kuwa ni muhimu kuwahusisha walimu katika kutatua tatizo la mwanao. Mwanzo wa muhula wa pili uliwapata wazazi hawa afisini mwa naibu wa mwalimu mkuu. Mazungumzo kati ya wazazi, naibu wa mwalimu mkuu na mwalimu wa darasa la Meli yalidhibirisha kwamba walimu walikuwa wamemuasa Meli kuhusu kujiingiza katika makundi yasiyomfaidi lakini rai zao ziliingia katika masikio yaliyotiwa nta. Aliyopenda zaidi Meli ni shughuli zilizomtoa nje ya shule kama vile tamasha za muziki, ukariri wa mashairi na drama. Mazungumzo yalibainisha kwamba Meli alihitaji ushauri na uelekezaji zaidi kutoka kwa mtaalamu wa nasaha pale shuleni.

Meli alianza vikao na mtaalamu huyu ambaye pia alimpendekezea Meli ushauri zaidi kutoka kwa washauri marika. Hili lilimchangamsha zaidi Meli kwani aliwaona hawa kama wenzake waliojua changamoto zake. Juhudi za mtaalamu wa nasaha na washauri marika zilifua dafu. Mwisho wa kidato cha pili ulishuhudia mabadiliko makuu katika hulka na utendaji kimasomo wa Meli. **Aliukata kabisa uhusiano wake na marafiki waliompotosha** na kuanza kuaridamana na wanafunzi waliotia juhudi masomoni. Polepole alama zake ziliimarika. Matokeo ya mtihani wa kidato cha nne yalimweka kwenye safu ya wanafunzi bora zaidi nchini.

I had never felt so nervous in my life. As I stood outside the hall waiting for my turn to go on stage and recite my poem, discouraging thoughts crossed my mind. I had been told that it was extremely difficult to win at this level of the competition. I had heard that adjudicators usually favoured participants from schools with a history of winning, and that it was almost impossible for a first-timer like me to emerge victorious. Indeed, it was rumoured that if the judge did not know you or your school, you stood little chance of winning.

Now here I was. Neither my school nor I had taken part in the festival before. I was representing my county in this competition, whose winner would proceed to the national level. My poem was entitled "Conquer the Monster". It was about the evils of corruption and favouritism.

"All those waiting to recite poems should now line up outside the entrance to the stage," came the emcee's voice over the loudspeaker. "If you fail to appear when your name is called, you will have yourself to blame."

Mr. Gali, my teacher, came to me, held me by the hand and led me to the entrance where I joined the queue. There were only three people in front of me.

"... And thereafter, Lydia shall present her poem 'Conquer the Monster'." When I heard my name I almost fainted. I felt weak in the knees, my eyes felt moist and then all of a sudden, I wanted to use the toilet. I looked around and saw a block of toilets nearby labelled "Staff Only." Luckily, the toilets were not locked.

No sooner was I inside one of the toilets than I heard the emcee announce that there was going to be a short break. Quick thinking told me that some staff members were likely to visit these toilets. Determined not to be found out, I firmly locked the door of the toilet in which I was. And sure enough, I soon heard two men talking as they approached the toilets.

"**I wonder what is happening in this festival,**" one of them said.

"Sure," said the other "I am yet to see a confident performer since the festival began. In fact, I have never adjudicated at a more boring festival." What? So these were the adjudicators! I now listened to them more keenly. "Most of the performers appear to lack confidence and are unsure of their lines," continued the second man. **That was music to my ears.** All the nervousness **melted away** in a second.

To my relief, these people did not stay in the toilets for long. As soon as they had left, I opened the door, rushed out and resumed my position on the queue. When I went on stage, I recited my poem as if my life depended on it. Needless to say, I got the first position.

Read the following passage and then answer questions 39 to 50.

Population control has become a burning issue in developing countries. Most countries realise that if they became overpopulated, the consequences will be **grave**. It is obvious that even within the family set-up, having many children becomes more of a problem than a blessing. In Kenya, the government, the church and individuals have always stressed the need to have a population that we can easily manage. This is because the negative effects of overpopulation are far-reaching.

For a country that relies on agriculture for its economic growth, the issue of land is crucial. If there is overpopulation, there will not be enough land for people to cultivate. They will therefore start cultivating the marginal lands and this could lead to the spread of deserts. Lack of enough land for farming will also lead to shortage of food, resulting in starvation and illnesses like marasmus and kwashiorkor.

In addition, scarcity of land may force people to move from rural to urban areas in search of alternative means of earning a living. With these migrations, towns become so overcrowded that people are forced to live in slums. The conditions in these areas are a health hazard. When people fail to get jobs, they become frustrated and some may turn to crime.

Furthermore, overpopulation causes strain on resources in the education sector. When the number of children born every year continues to grow, classrooms become congested and there aren't enough teachers. This affects the academic performance of the pupils.

Moreover, a country with a high population finds it difficult to cope with the health problems of its people. The medical facilities will not be adequate. This means that the sick will not be attended to in time, infant mortality will be high, and the life expectancy will be low.

The problem of overpopulation also has a great effect on individuals even at the family level. A family that has many children often finds it difficult to feed, clothe and educate them. The parents usually blame each other for their problems and in the long run, this may lead to family breakup.

It is important, therefore, that people embrace family planning methods in order to **cut down on** the high rate of population growth.
