**Read the following passage carefully and then answer questions 31- 40**

People have different and unique talents. Some people like 'Papa Shirandula,' 'Inspekta Mwala,' 'Nyambane' and Churchill can crack your ribs with laughter by just using their mouths. The radio stations and television channels have given such comedians a chance to use their talents and earn good money.

Our well-known athletes cannot be forgotten too. They train in lonely places like forests, valleys, hills and near mountains. After good training, they go to race in marathons, olympics or world championships where they win

medals together with a lot of cash just for racing. Some of them are Catherine Ndereva, Paul Tergat and Pamela Jelimo.

Our musicians are also not left out. Some of them are Jimmy Gait, Eric Wainaina, Esther Wahome and Nameless among others. They make money by singing. Remember, the other day in the year 2010, our own son Mariga, the footballer landed a chance to make millions of shillings by playing football. Use your talent. Don't waste it.
