Read the passage below and answer questions

31-40

Celebrations are occasions when people get together to share joy of happy events in their lives. For children, their birthdays are very exciting because this is when they turn a year older. With age comes new responsibilities and freedoms. Friends and relatives bring presents. Parents often bake a cake for the child to share with his or her visitors.

As we grow older, birthdays are not so important because we have already experienced so many of them. One of the main functions that adults enjoy attending is a wedding where they see their friends and relatives getting married. The wedding ceremony is the most important part of the wedding. A priest or imam marries the couple and they sign a certificate of marriage which legally makes
them a man and wife. Then it is time for the party to begin.
The guest usually share a meal and there are plenty of
speeches by the bride and groom’s relatives and friends.
In the evening there is music and dancing which can
continue into early hours.
