Serekali yetu imeanzisha shule mbalimbali za kuwafunza walemavu. Kunazo shule za vipofu, viwete na waliopungukiwa na akili kwa njia hiyo wasiojiweza wanapewa nafasi ya kujipatia mafunzo waweze kujitegemea maishani.

Sisi tuliobarikiwa uzima na mwenyezi Mungu tunafaa kuwasaidia wasiojiweza kwa mfano tunapowakuta vipofu barabarani tunapaswa kuwasaidia kuvuka barabara hiyo kwa usalama. Hali kadhalika tunafaa kuwasaidia vikongwe kwa kuwaongoza kuwapa chakula au kwa kuwapa msaada wowote wanaohitaji.

Ni adabu mbaya kumcheka mtu mwenye upungufu. Msichana mmoja anayeitwa Maria. Maria aliadhibiwa na mamake kwa sababu ya kumcheka kiguru. Baada ya kupigwa Maria alimuomba mamake msamaha. Tangu siku hiyo alielewa kuwa wasiojiweza wanahitaji msaada badala ya kuchekwa kwa! kwa!

Read the passage below and use it to answer questions 31 to 40.

Once there were two fast friends in a village. Their names were Raju and Ramu. One day both of them **set out** on a journey.

They promised to help each other in trouble. Their way lay through a forest. As they were passing through a forest, they saw a big bear. The bear was coming towards them. They were much frightened to see such a deadly sight.

Ramu at once climbed up a nearby tree to save his life. He was unaware of his friend's safety. Raju did not know how to climb up a tree.

But he was wise and intelligent. He had heard that bears do not touch the dead. So he lay on the ground, held his breath and appeared to be dead. The bear came near him and sniffed the whole body of Raju. Thinking him dead, he went away.

When the bear had gone quite far Raju got on his feet. Ramu also came down the tree. He asked Raju to tell him what the bear had whispered in his ear. Raju said that the bear had advised him to beware of false friends like him.

Read the passage below and use it to answer questions 41 to 50.

Trees are an important part of every community. Our streets, parks, playgrounds and backyards are lined with trees that create a peaceful, beautifully and pleasing environment. Trees increase our quality of life by bringing natural elements and wildlife habitats into urban settings. We gather under the cool shade they provide during outdoor activities with family and friends. Many neighbourhoods are also the home of very old trees that serve as historic landmarks and a great source of town pride.

Using trees in cities to deflect the sunlight reduces the heat island effect caused by pavement and commercial buildings.

Trees contribute to their environment by providing oxygen, improving air quality, climate improvement, conserving water, preserving soil, and supporting wildlife. During the process of photosynthesis, trees take in carbon dioxide and produce the oxygen we breathe. Trees, shrubs and turf also filter air by removing dust and absorbing other pollutants like carbon monoxide, sulfur dioxide and nitrogen dioxide. After trees intercept unhealthy particles, rain washes them to the ground.

Trees control climate by moderating the effects of the sun, rain and wind. Leaves absorb and filter the sun's radiant energy, keeping things cool in summer. Trees also preserve warmth by providing a screen from harsh wind. In addition to influencing wind speed and direction, they shield us from the downfall of rain, sleet and hail. Trees also lower the air temperature and reduce the heat intensity of the greenhouse effect by maintaining low levels of carbon dioxide.

41. Why are trees important to the community?
Because
- A. it makes us beautiful.
 - B. it makes environment beautiful.
 - C. it makes life beautiful.
 - D. it makes the environment dirty.
42. According to the passage, many neighbourhoods are the home of
- A. many trees.

- A. rain
 - B. wind
 - C. carbon dioxide
 - D. sunlight
44. How do trees contribute to the environment?
- A. Provide oxygen.
 - B. Provide wind.
 - C. Provide water.
 - D. Provide sun
45. During the process of photosynthesis, what happens to the trees?
- A. Take in oxygen.
 - B. Produce wind.
 - C. Produce carbon dioxide.
 - D. Take in carbon dioxide.
46. Which gases are absorbed by shrubs and turf?
- A. Nitrogen and oxygen.
 - B. Carbon monoxide and nitrogen dioxide.
 - C. Carbon and oxygen.
 - D. Water and carbon oxide.
47. Trees control climate in our environment by moderating the effects of
- A. the sun.
 - B. the wind.
 - C. the water
 - D. rain.
48. Trees also preserve warmth by
- A. providing winds.
 - B. providing water.
 - C. providing screen from harsh wind.
 - D. shield us from the downfall.
49. Trees lower the air temperature by lowering the level of
- A. oxygen
 - B. nitrogen
 - C. carbon monoxide
 - D. carbon dioxide
50. What would be the BEST title of the passage above?
- A. Importance of trees.
 - B. Importance of carbon dioxide.
 - C. Importance of caring for trees.
 - D. Importance of water.
