Read the passage below and then answer questions 26 - 38:-

Drug trafficking is a business with devastating consequences on the players. Many lives have been lost or ruined through the over consumption of drugs. The most commonly used drug in Nairobi, other towns and even in rural areas, is bhang. Despite a concerted effort by the police to stomp out the trafficking of bhang, the business seems to be growing bigger and wider. This is shown by the increase in the bhang confiscated every other day. But of course, a lot of the drugs go past police surveillance and ends up in the hands of users. What is even more disturbing is that, young people are hooked on these drugs.

The level of drug abuse is a source of concern for the government, parent and police as a whole. This has been made worse by the fact that other more devastating drugs which have ruined many lives in the developed countries are now finding their way into Kenya and are abused by some youngsters.

Cocaine, heroine, mandrax and other drugs as has been reported in the past, can now be obtained in various hideouts in Nairobi and other big towns. It is instructive that none other than the Director of Education has called for intensification of the war against drug abuse, especially among the youth. Although the director did not give any statistics, the concern of such a key figure in the education system is a sign that all is not well. The director has rightly observed that the main victim of the drug related problems are the youth. At this stage of their lives, they are easily manipulated and misled. It is also during this stage in life that people are curious and like to experiment with all sorts of things including taking drugs.

The drug menace especially among the young people, needs to be tackled by all of us. We cannot leave the challenge to teachers and parents alone. We entirely agree that this scourge must be taught at every level, in homes, schools and workplaces. Once people get hooked to drugs, they become ill and cannot therefore contribute to the development of their communities and the nation. They become a burden which the society cannot afford. This evil must be fought.

Read the passage below and then answer questions 39 - 50:-

What is conservation of environment? It is the way we preserve the environment, or try to keep the environment in its natural condition. The main aim of conservation is two fold. Firstly, it is to keep the environment clean. Secondly, it is to make sure that we do not lose our resources.

So, what are our environmental resources? These are the things the nature and not people produces. They include the air or atmosphere, the water, the soil and land, the plant and the animals. How can we conserve environment? The most way of conserving the air, water, land, plants and animals is by planting trees. Why are trees so important? Trees are the essential link between the air and the land. Basically, the more trees there are the fresher the air. For trees to take in carbon dioxide and give off oxygen, they act like cleaners. To do this, they use energy from the sun

Trees also preserve and enrich the soil. Trees provide shade and directly stop evaporation of water. Their roots hold the soil in place and prevent soil erosion. In addition, their leaves fall to the ground and form mulch which not only prevents evaporation but also produces water and nutrients. In this way, the roots bring nutrients up to the surface where smaller plants can feed on them. In turn, these smaller plants become food for animals which graze in the shade of the trees, and both plants and the animals provide food for humans.

So, you can see that we are able to get food both directly and indirectly from trees. The fruits, flowers, leaves and bark give us food and medicine. But in addition, the surrounding plants and animals depend on trees to provide them with food and shelter too. Infact, we could say that without trees, there would be no plants and no animals for us to eat.

Ingawa kijiji cha Mtaani kilikuwa ni mkusanyiko wa nyumba za udongo na barabara zake zikiwa vichocho visivyotandikwa lami, wakazi wa kijiji hicho walipenda sana maendeleo. Wazazi hata wawe maskini namna gani, walijikusuru wawezavyo kuwasomesha watoto wao, wawe wa kiume au wa kike.

Mojawapo ya shule maarufu za kijiji cha Mtaani ilikuwa ni Songambele ambapo wasichana kutoka tabaka mbalimbali waliendelea na masomo hadi darasa la nane kabla ya kuhitimu shule ya upili. Walimu wa shule hii pia walihafamu umuhimu wa kufunza watoto wa kike mambo yaliohusiana na upangaji wa uzazi na hasa hatari za wanafunzi kuhadaiwa hadi wakaringwa na watu ambao hawangewaoa ila kuwaharibia si masomo yao tu, bali pia mustakabali wao.

Shule yenyewe ilikuwa ni mojawapo ya majumba machache ya kijiji hicho ambayo yalijengwa kwa

mawe. Shule hii ilikuwa na madawati ya hali ya juu. Mavazi rasmi ya wasichana wa shule hii yalikuwa ni blauzi nyeupe na sketi ya bluu. Daima wasichana hao walionekana kuwa nadhifu na wenye kupenda masomo yao. Mwalimu katika somo lake la isimujamii aliwafahamisha vijana wa darasa la nane kuhusu mabadiliko yanayowapata kutoka utotoni hadi kuvunja ungo.

Aliwafahamisha kuwa mtoto wa kiume anapovunja ungo, ama kubaleghe, sauti yake hugeuka na kuwa nzito na wengine huanza kuota ndevu. Aliwafahamisha pia kwamba mabadiliko haya kwa watoto wa kike huanza wanapokuwa na umri kati ya miaka 12 na 14, nao wa kiume kati ya umri wa miaka 14 na 15. Mwalimu aliwajulisha wasichana kwamba wakati huo ndipo inapokuwa hatari kwa wasichana wakikubali kuhadaiwa na wavulana hadi wakafanya mapenzi. Kwani, wakati huo inakuwa rahisi kwa mtoto wa kike kama huyo kuchukua himila na kuharibiwa kabisa masomo yake, wakati mwingine maisha pia.

Katika darasa la nane walikuwako wasichana wawili marafiki wakubwa. Walikuwa Leila, msichana mwembamba maji ya kunde na kimo cha wastani. Alikuwa msichana mrembo ambaye alipendelea sana kushirikiana na mvulana. Rafikiye alikuwa anaitwa Raha. Raha alikuwa mwenye nywele za singa na mrembo sana. Raha kidogo alikuwa mwangalifu.

Leila alitoka katika jamii maskini, lakini nduguye wa kiume Abu alijitolea mhanga kwa hali na mali kumsomesha dada yake. Alikuwa tayari kujinyima ili atimizie dada yake mahitaji yote ya shule kama vile karo, vitabu na mavazi. Raha maye alitoka katika jamii ambayo haikuwa tajiri wala maskini, hivyo wazazo wake waliweza kumtimizia mahitaji yake yote bila ya shida.

Katika mji huo huo, alikuwako kijana mmoja mwenye sura nzuri maungo wastani. Yeye pia alikuwa maji ya kunde. Kila msichana aliyemwona alivutiwa sana na wajihi wake. Kijana huyo alikuwa mwana wa pekee wa Mzee Kombora, ambaye alikuwa tajiri maarufu wa mji wa Mtaani. Kwa ajili ya kuwa mwana wa pekee, kijana huyo, kwa jina Kombo, alikuwa amelelewa vibaya sana hivi kwamba wazazi wake hawakujali hata ikiwa alifanya kitendo kiovu. Wao walikuwa tayari kumtetea kwa vyovyote na daima waliamini kwamba mtoto wao hakuwa na hatia ila waliokosewa kwa maoni ya wazazi wake ni wivu ulikuwa ukiwasumbua. Kumbe hawakujua kuwa umdhaniye siye kumbe ndiye.

Kwa mvuto aliokuwa nao Kombo, Leila akajipata akinasika. Mapenzi yake kwa Kombo yalimtia kiwi asiweze kubaini jema na mbi. Kumbe ndipo akawa zingwizingwi ambaye ukimpa nguo, heshi mashauo. Leila na Kombo wakawa wandani wa ulimi na mate. Ulimbo wa kupigiwa mano na tembe na jogoo. Daima wawili hao walitembea na kufuatana kama tembe na jogoo afadhali kumbikurabi.

Yalitokea si ya kusimuliwa, Leila kwa sasa huuza mihogo barabarani, wanawe watatu, wote baba za tofauti wamekaa kando yake. Kombo naye, asukuma siku zake zilizosalia ulimwenguni gerezani. Sababa kumbaka msichana mdogo mwenye umri wa miaka sita.

Nchi ya Burkina Faso haina sifa kuwa ghala la chakula. Watu wake milioni 16 wanaishi pembezoni mwa eneo la jangwa na milioni nne kati yao wanategemea misaada ya chakula kutoka kwa mashirika ya kimataifa. Lakini tokea miaka tisini, Burkina Faso imekuwa ikiongeza tija ya kilimo maradufu. Burkina Faso imeweza kuongeza tija ya kilimo kutokana na mpango bora wa unyunyizaji maji shambani. Na wataalamu wanasema tija zaidi inatarajiwa katika miaka ijayo.

Kutokana na njia hiyo ya kunyunyizia mashamba maji mavuno yanakuwa makubwa hata wakati wa ukame. Katika juhudi za kuongeza tija, wizara ya kilimo ya Burkina Faso pia inasaidia. Serikali inatoa fedha kwa ajili ya kueneza mpango wa umwagiliaji wa mashamba maji. Wakulima wadogo wadogo wanapatiwa vifaa vinavyolipiwa na serikali. Serikali inatoa ruzuku ya kufidia theluthi mbili ya gharama.

Serikali ya Burkina Faso inasaidia kwa kutenga kiasi fulani cha pesa kwa ajili ya mradi wa umwagiliaji wa mashamba maji kwa mujibu wa mkurugenzi wa mradi huo, yapo matumaini ya kuifanya Burkina Faso iwe nchi ya kuuza mazao ya kilimo nje na kuweza kuingiza fedha nyingi.

Kwa mfano, Burkina Faso inauza nyanya na vitunguu nchini Ghana, Nigeria na Ivory Coast. Na ikiwa yaweza kuboresha ufundi wa umwagiliaji wa maji, pana uwezekano wa Burkina Faso kuuza mazao si katika nchi za Afrika Magharibi lakini hata kwenye masoko ya kimataifa.

Burkina Faso inatekeleza sera za kilimo cha mashamba madogo. Hadi kufikia kituo cha unyunyizaji wa maji katika mashamba makubwa njia bado ni ndefu kwa Burkina Faso. Yafaa kutilia maanani kwamba Burkina Faso ni nchi inayokabiliwa na kile kinachoitwa **shinikizo la ardhi** kwa sababu idadi ya watu inaongezeka kwa asilimia tatu nukta mbili kila mwaka huku eneo la kilimo haliwezi kuongezeka sambamba na jinsi ambavyo watu wangependelea.
