

- iii) Many candidates did not practice proper hygiene measures while preparing and cooking food. Many a times food was left uncovered for long periods of time.
- iv) Some candidates were not economical in the use of fuel, water, food and cleaning materials.

15.3 ADVICE TO TEACHERS

1. Teachers should advise their students on the importance of reading the questions before attempting to answer them. Adequate preparation is required through constant revision and testing before sitting for KCSE.
2. Syllabus coverage and completion is mandatory before students can sit for the examination.
3. Practical and theory should be handled hand in hand since they compliment each other.
4. Advance instructions should be strictly adhered to on materials to be prepared before the examination.
