

## 14.2 INDIVIDUAL QUESTION ANALYSIS

We shall now discuss a few of the questions that candidates generally found more challenging. The weaknesses brought out generally apply to most candidates.

### 14.2.1 PAPER 1 (316/1)

#### Question 2

State **five** features of a good family budget. (5 marks)

#### Weaknesses

Here most candidates gave the reasons for budgeting and failed to tie them to a good family budget. Candidates must be taught to apply knowledge to relevant and specific situations. An interactive approach to teaching and learning will do the job.

#### Expected Responses

- a) Is prepared in consultation with family members
- b) Accommodates interests of all the members
- c) Prioritizes family needs
- d) Is within the limits of family income
- e) It encourages prudent spending
- f) It is prepared well in advance
- g) It is flexible enough to cater for emergencies
- h) It is easy enough to understand and implement
- i) It avoids borrowing

#### Question 5

List **five** traditional African practices that may undermine the dignity of a woman. (5 marks)

#### Weaknesses

This question was poorly performed because most candidates did not distinguish between traditional and modern practices. It is necessary for candidates to read and understand questions before they do them. Teachers should also distinguish between traditional and modern practices as they teach.

#### Expected Responses

- a) Widow inheritance
- b) Wife beating
- c) Female genital mutilation (FGM)
- d) Forced/arranged marriages
