

Expected Response

The expected expression was = Sum ([Amount paid]). This expression was to be inserted as report footer.

Advice to Teachers

Teach on importance and design of database reports. Formatting of reports and use of the available tools to manipulate data is also necessary.

Performance in the project, **451/3** was good.

Computer Studies is a fast growing subject. All students would aspire to be computer literate when they leave school. It would be unwise to deny the students a chance to learn the subject while in school. Schools are therefore urged to provide adequate facilities for learning and examination.
