

The rest of the report will address the questions in which candidates performed poorly and will particularly focus on the weaknesses in candidates' answers compared to the expected responses.

### 23.1 PAPER 1 (449/1)

#### Question 2

- (a) (i) Give the lowest level of training programme in technical skills.  
(ii) State the type of institution where such programmes are offered. (1½ marks)
- (b) State **one** reason why each of the following factors should be considered during design:  
(i) personal  
(ii) moral  
(iii) environmental  
(iv) economic (2 marks)

In part (a) the question required candidates to demonstrate understanding of post school training programmes offered in the 8-4-4 system. Candidates were also required to demonstrate knowledge of where such courses are offered. In part (b) the question required candidates to display their knowledge of design.

#### Weaknesses

Some candidates appeared limited in their knowledge on occupational information. Many candidates were not specific in their answers. In both sections candidates showed poor interpretation and weakness in both occupational information and design.

#### Expected Responses

- (a) (i) Artisan  
(ii) Youth Polytechnic and TTI's
- (b) Personal  
Safety, status  
Moral  
Acceptability, culture, religion  
Environmental  
Pollution conservation  
Economic  
Cost, affordability
